HOUSTON DIVISION

In re:	:	Chapter 11
OFFICE PROPERTIES INCOME TRUST, *et al.*,	:	Case No. 25-90530 (CML)
Debtors.[1]	:	(Jointly Administered)

NOTICE OF FILING OF (I) LIQUIDATION ANALYSIS, (II) FINANCIAL PROJECTIONS, AND (III) VALUATION ANALYSIS WITH RESPECT TO DISCLOSURE STATEMENT FOR JOINT CHAPTER 11 PLAN OF REORGANIZATION OF OFFICE PROPERTIES INCOME TRUST AND ITS DEBTOR AFFILIATES

PLEASE TAKE NOTICE that, on January 9, 2026, the above-captioned debtors and debtors-in-possession (collectively, the "***Debtors***") filed the *Disclosure Statement for Joint Chapter 11 Plan of Reorganization of Office Properties Income Trust and Its Debtor Affiliates* [Docket No. 576] (as the same may be amended, supplemented, or modified, the "***Disclosure Statement***").

PLEASE TAKE FURTHER NOTICE that the Debtors hereby file (a) the liquidation analysis attached hereto as **Exhibit A** (the "***Liquidation Analysis***"), which will be attached as Exhibit C to the Disclosure Statement; (b) the financial projections attached hereto as **Exhibit B** (the "***Financial Projections***"), which will be attached as Exhibit D to the Disclosure Statement; and (c) the valuation analysis attached hereto as **Exhibit C** (the "***Valuation Analysis***"), which will be attached as Exhibit E to the Disclosure Statement.

PLEASE TAKE FURTHER NOTICE that all documents filed in these chapter 11 cases, including the Disclosure Statement, the Liquidation Analysis, the Financial Projections, the Valuation Analysis, and other relevant case information are available free of charge on the following website maintained by the Debtors' claims, balloting, and noticing agent, Kroll Restructuring Administration LLC, in connection with the chapter 11 cases: https://restructuring.ra.kroll.com/OPI/. Copies of any pleadings or papers filed with the Court may also be obtained by visiting the Court's website at https://ecf.txsb.uscourts.gov in accordance with the procedures and fees set forth therein.

[1] A complete list of the Debtors in the Chapter 11 Cases may be obtained on the website of the Debtors' claims and noticing agent at https://restructuring.ra.kroll.com/OPI. The Debtors' mailing address is Two Newton Place, 255 Washington Street, Suite 300, Newton, Massachusetts 02458-1634.

Dated: February 19, 2026
Houston, Texas

Exhibit A

Liquidation Analysis

LIQUIDATION ANALYSIS[1]

Introduction

Under the "best interests" of creditors test (the "***Best Interests Test***") set forth in section 1129(a)(7) of the Bankruptcy Code, the Bankruptcy Court may not confirm a plan of reorganization unless the plan provides each holder of an Allowed Claim or Interest who does not otherwise vote in favor of the plan with property of a value, as of the effective date of the plan, that is not less than the amount that such holder would receive or retain on account of such Allowed Claim or Interest if the debtor was liquidated under chapter 7 of the Bankruptcy Code. *See* 11 U.S.C. § 1129(a)(7).

Accordingly, to demonstrate that the Plan satisfies the Best Interests Test, the Debtors, with the assistance of their restructuring advisors, AP Services, LLC, have prepared this hypothetical liquidation analysis (the "***Liquidation Analysis***"), which is based upon certain assumptions discussed in the Disclosure Statement and the accompanying notes to this Liquidation Analysis.

This Liquidation Analysis sets forth an estimated range of recovery values for each Class of Claims and Interests upon disposition of assets pursuant to a hypothetical chapter 7 liquidation. As illustrated by this Liquidation Analysis, (a) Holders of Claims in certain Unimpaired Classes that would otherwise receive a full recovery under the Plan would receive an equal or lower recovery in a hypothetical liquidation and (b) Holders of Claims or Interests in Impaired Classes would receive a lower recovery in a hypothetical liquidation than they would under the Plan. Further, no Holder of a Claim or Interest would receive or retain property under the Plan of a value that is less than such Holder would receive in a chapter 7 liquidation. Accordingly, and as set forth in greater detail below, the Debtors believe that the Plan satisfies the Best Interests Test. The Debtors believe that this Liquidation Analysis and the conclusions set forth herein are fair and represent the Debtors' best judgment regarding the results of a liquidation of the Debtors under chapter 7 of the Bankruptcy Code.

Statement of Limitations

The preparation of a liquidation analysis is an uncertain process involving the use of estimates and assumptions that, although considered reasonable by the Debtors based upon their business judgment and input from their advisors, are inherently subject to significant business, economic, and competitive risks, uncertainties and contingencies, most of which are difficult to predict and many of which are beyond the control of the Debtors, their management, and their advisors. Inevitably, some assumptions in the Liquidation Analysis would not materialize in an actual chapter 7 liquidation, and unanticipated events and circumstances could materially affect the ultimate results in an actual chapter 7 liquidation. The Liquidation Analysis was prepared for the sole purpose of generating a reasonable, good faith estimate of the proceeds that would be generated, and the recoveries that would result, if the Debtors' assets were liquidated in accordance with chapter 7 of the Bankruptcy Code after conversion of the Chapter 11 Cases. The Liquidation Analysis is not intended and should not be used for any other purpose. The underlying financial information in the Liquidation Analysis and values stated herein have not been subject to any review, compilation, or audit by any independent accounting firm. Other than for the properties in the 2027 Senior Secured Notes Claims silo (as discussed below), independent appraisals were not obtained in preparing the Liquidation Analysis. In addition, various liquidation decisions upon which certain assumptions are based are subject to change. As a result, the actual amount of Claims that would ultimately be allowed against the Estates could vary significantly from the estimates

1 Capitalized terms used but not otherwise defined herein shall have the meanings ascribed to them in (a) the *Joint Chapter 11 Plan of Reorganization of Office Properties Income Trust and its Debtor Affiliates* (the "**Plan**") or (b) the *Disclosure Statement for Joint Chapter 11 Plan of Reorganization of Office Properties Income Trust and its Debtor Affiliates* (the "**Disclosure Statement**").

stated herein, depending on the nature and amount of Claims asserted during the pendency of the hypothetical chapter 7 case. Similarly, the value of the Debtors' assets in a liquidation scenario is uncertain and could vary significantly from the values set forth in the Liquidation Analysis.

The Debtors' estimates of Allowed Claims and Interests contained in the Liquidation Analysis reference specific Claims estimates, even though the Debtors' estimates of ranges of projected recoveries under the Plan to Holders of Allowed Claims and Interests are based on ranges of Allowed Claims and Interests. In addition, the cessation of business in a chapter 7 liquidation is likely to trigger certain Claims that otherwise would not exist under a Plan absent a liquidation. These additional Claims could be significant, and some may be administrative expenses, while others may be entitled to priority in payment over General Unsecured Claims.

The Liquidation Analysis does not include estimates for: (i) the tax consequences, either foreign or domestic, that may be triggered upon the liquidation and sale of assets, (ii) potential employee Claims that may arise for such items as severance and potential WARN Act liabilities, (iii) recoveries resulting from any potential preference, fraudulent transfer, or other litigation or Avoidance Actions, (iv) certain Claims that may be entitled to priority under the Bankruptcy Code, including administrative priority Claims under sections 503(b) and 507(b) of the Bankruptcy Code, (v) environmental or other governmental Claims arising from the shut-down or sale of the Debtors' assets, (vi) additional unsecured and contract and lease breakage Claims arising from a chapter 7 liquidation, (vii) uncertain immaterial tax claims, (viii) incremental severance claims that could arise from RMR related to the termination of RMR employees who perform work fully or partially for the Debtors, or (ix) the negative consequences of potential tenant or operational disruptions that may occur as a result of the liquidation process. More specific assumptions are detailed in the notes below. ACCORDINGLY, NEITHER THE DEBTORS NOR THEIR ADVISORS MAKE ANY REPRESENTATION OR WARRANTY THAT THE ACTUAL RESULTS OF A LIQUIDATION OF THE DEBTORS WOULD OR WOULD NOT, IN WHOLE OR IN PART, APPROXIMATE THE ESTIMATES AND ASSUMPTIONS REPRESENTED HEREIN. THE ACTUAL LIQUIDATION VALUE OF THE DEBTORS IS SPECULATIVE AND RESULTS COULD VARY MATERIALLY FROM ESTIMATES PROVIDED HEREIN.

In preparing the Liquidation Analysis, the Debtors estimated Allowed Claims based upon a review of the Debtors' financial statements to account for other known liabilities, as necessary. In addition, the Liquidation Analysis includes estimates for Claims not currently asserted in the Chapter 11 Cases, but which could be asserted and allowed in a chapter 7 liquidation, including unpaid chapter 11 Administrative Claims, and administrative Claims for costs and expenses in a chapter 7 liquidation such as wind down costs and the Trustee Fees (as defined below) (together, the "**Wind-Down Expenses**"). To date, the Bankruptcy Court has not estimated or otherwise fixed the total amount of Allowed Claims used for purposes of preparing this Liquidation Analysis. Therefore, the Debtors' estimate of Allowed Claims set forth in this Liquidation Analysis should not be relied on for any other purpose, including determining the value of any distribution to be made on account of Allowed Claims and Interests under the Plan. NOTHING CONTAINED IN THE LIQUIDATION ANALYSIS IS INTENDED TO BE OR CONSTITUTES A CONCESSION OR ADMISSION OF THE DEBTORS. THE ACTUAL AMOUNT OF ALLOWED CLAIMS IN THE CHAPTER 11 CASES COULD MATERIALLY DIFFER FROM THE ESTIMATED AMOUNTS SET FORTH IN THE LIQUIDATION ANALYSIS.

Basis of Presentation

This Liquidation Analysis has been prepared assuming that the Debtors converted their current Chapter 11 Cases to cases under chapter 7 of the Bankruptcy Code on or about April 30, 2026 (the "**Liquidation Date**"). Except as otherwise noted herein, this Liquidation Analysis is based upon the estimated assets and liabilities as of the Liquidation Date. It is assumed that on the Liquidation Date, the Bankruptcy Court would appoint a chapter 7 trustee (the "**Trustee**") to oversee the liquidation of the Debtors' estates, during which time all of the assets of the Debtors would be sold as operating properties such that no additional general unsecured claims are generated. Thus, the cash proceeds, net of liquidation-related costs, would then be distributed to creditors in accordance with applicable law: (i) ***first***, for payment of post-conversion expenses and other chapter 7 administrative claims; (ii) ***second,*** to pay pre-conversion superpriority administrative claims, including postpetition intercompany payables, (iii) ***third***, to pay the secured portions of all Allowed Secured Claims (including the Mortgage Debt Guarantee Claims, Secured Credit Facility Claims, March 2029 Senior Secured Notes Claims, September 2029 Senior Secured Notes Claims, 2027 Senior Secured Notes Claims, and the DIP Claims) from the respective first and second lien collateral. Any remaining net cash would be distributed to creditors holding unsecured claims including Priority Guaranteed Unsecured Notes Claims, Unsecured Notes Claims, Parent General Unsecured Claims, Subsidiary General Unsecured Claims and any applicable deficiency Claims that arise to the extent of the unsecured portion of the Allowed Secured Claims. Certain factors, such as an inability by the Debtors or the Trustee to maintain the Debtors' operations during the Liquidation Process (as defined below), a seizure of collateral by secured creditors, and/or delays in the Liquidation Process, may limit the amount of the proceeds generated by the liquidation of the Debtors' assets. These factors could materially reduce the value, on a "present value" basis, of the liquidation proceeds and yield significantly lower recoveries than those estimated in this Liquidation Analysis.

The Liquidation Analysis has been prepared assuming that the Debtors' current Chapter 11 Cases convert to chapter 7 on the Liquidation Date. This Liquidation Analysis assumes operations of the Debtors and Non-Debtor Affiliates will continue and the related individual assets will be sold in a sale under a nine-month liquidation process (the "**Liquidation Process**") under the direction of the Trustee, utilizing the Debtors' resources, third-party management firm and other third-party advisors, to allow for the orderly wind down of the Debtors' estates, including the assumption that all properties would be liquidated in a six-month time-frame but the ultimate wind-down of the operations would require an additional three-months. There can be no assurance that the liquidation would be completed in this limited time frame, nor is there any assurance that the recoveries assigned to the assets would in fact be realized. Under Section 704 of the Bankruptcy Code, a trustee must, among other duties, collect and convert the property of the estate as expeditiously (generally in a distressed process) as is compatible with the best interests of parties-in-interest. This Liquidation Analysis is also based on the assumptions that: (i) the Debtors have continued access to cash collateral during the course of the Liquidation Process to fund Wind-Down Expenses and (ii) RMR continues to manage the properties during the Liquidation Process and the operations, accounting, treasury, IT, and other management services needed to wind down the estates continue. This Liquidation Analysis was prepared on a by-entity basis and is displayed below according to the various collateral packages, consolidated by creditor silo for convenience. Asset recoveries accrue first to satisfy creditor Claims at the creditor silo in which liabilities have been incurred. To the extent any remaining value exists, it flows to each individual creditor silo's parent silo/entity/organization or appropriate shareholder.

The Liquidation Analysis assumes that net proceeds from the sale of the assets will be distributed in accordance with section 726 of the Bankruptcy Code, and no distributions will be made to holders of equity interests until all creditors are satisfied in full. Certain assets are not part of every creditor's collateral, and the estimated recoveries for assets have been segregated and made available to the applicable holders of Claims.

LIQUIDATION ANALYSIS

This Liquidation Analysis for the Debtors was analyzed on an entity-by-entity basis. The following table provides a summary of the Liquidation Analysis for the Debtors, which should be reviewed in conjunction with the associated notes.

Low Recovery Scenario:

First Lien Collateral Pool: (in $ thousands)		Mortgage Debt Guarantees	Secured Credit Facility	March 2029 Senior Secured Notes	September 2029 Senior Secured Notes	2027 Senior Secured Notes	Unencumbered Assets	Office Properties Income Trust

Notes to the Liquidation Analysis

Asset Recovery Estimates

[A] Gross Property Value: Gross property value was informed by various sources of information depending on, among other things, the specific collateral pool and property, as well as the Debtors' current intended use, transfer, or other disposition of the applicable collateral pool and property. The Debtors' advisors arrived at a valuation of $1.65 billion to $1.85 billion for the collateral maintained in all silos including the non-Debtor Mortgage Debt properties but excluding the 2027 Senior Secured Notes First Lien Collateral; this value was allocated among the properties. Further, within the $1.65 billion to $1.85 billion range, the Debtors provided specific estimates for certain properties that are current disposition targets and those estimates were then removed from the $1.65 billion to $1.85 billion range so the remaining value could be allocated to the remaining properties based upon normalized earnings. Normalized earnings were represented by either 2026 or 2027 projected net operating income. Lastly, third-party appraisals were utilized for the value of the 2027 Senior Secured Notes collateral.[2]

[B] Liquidated Property Value: Liquidated property values reflect the value expected to be received assuming a forced sale and were informed by discussions with the Debtors who indicated various levels of discounts based on each collateral silo. These discounts ranged from 20% to 25% for the properties secured by the Mortgage Debt; 25% to 30% for the Secured Credit Facility first lien collateral; 25% to 30% for the March 2029 Senior Secured Notes first lien collateral; 35% to 40% for the September 2029 Senior Secured Notes first lien collateral; 35% to 40% for the 2027 Senior Secured Notes Claims first lien collateral; and 40% to 45% for the prepetition unencumbered assets.

These discounts consider the significant disruption a chapter 7 process would have on the portfolio (e.g., a chapter 7 trustee managing over 120 individual properties and sales processes, including likely tenant related issues), ongoing lease negotiation risk, the implications of an expedited sale timeline, and market saturation attributable to the full portfolio of investment properties entering a liquidation sales process concurrently. Many other market conditions could severely impact the amount of proceeds obtainable within the liquidation sales process that are unable to be quantified and could serve to severely degrade the value of the properties in an open market process. These conditions include, but are not limited to, limited marketing, lack of traditional financing, and uncertainty of the liquidation sales process.

[C] Real Estate Fees: In addition to the chapter 7 Trustee Fees and Chapter 7 Professional Fees (each as defined below) related to a hypothetical chapter 7 case, as the Debtors monetize real estate assets, additional fees will occur due to, among others, various real estate brokers, lawyers, and asset managers, responsible for finalizing the sale/liquidation of each property. Based on discussion with the Debtors, the estimated cost of such additional fees per real estate asset sale is 3% of the sales proceeds inclusive of broker fees, and additional fees associated with these transactions.

---

2 All such third-party appraisals and the values from such appraisals incorporated in this Liquidation Analysis are preliminary drafts prepared in anticipation of litigation. Such values are subject to definitions, assumptions, and limiting conditions specified in the actual appraisal reports, which values and reports are subject to material revision. Such values are indicative and for purposes of this hypothetical Liquidation Analysis only and in no event should such values be separately used or considered. No party may use or rely on such values or conclusions expressed herein for any other purpose. The Debtors reserve all rights with respect to such values and the draft third-party appraisals from which they originate.

Chapter 7 Liquidation / Wind-Down Expenses

[D] Chapter 7 Trustee Fees and Professional Fees: Pursuant to sections 326 and 330 of the Bankruptcy Code, the Bankruptcy Court may allow reasonable compensation for the Trustee's services (the "***Trustee Fees***"). For purposes of this Liquidation Analysis, the Trustee Fees are estimated to be 2% of liquidation proceeds realized from the net property values illustrated above.

Pursuant to section 726 of the Bankruptcy Code, the allowed administrative expenses incurred by the Trustee, including expenses affiliated with selling/liquidating the Debtors' assets and winding down operations (the "***Chapter 7 Professional Fees***"), will be entitled to payment in full prior to any distribution to Administrative Claims and Other Priority Claims. These fees are based on expected fees and expenses of legal, financial, and other professionals as well as the complexity of the Debtors' liquidation and wind-down that the Debtors' estates may need to defend and pursue for purposes of settling Claim amounts and monetizing assets.

[E] Cash: The cash balance represents the estimated balance as of the Liquidation Date. A 100% recovery on cash and equivalents has been estimated for the low and high cases but has been offset for (a) restricted cash associated with security deposits as the properties are assumed to be operating through the relative sales and (b) accrued but unpaid professional fees.

Claims[3]

[F] Administrative Intercompany Claims: Administrative Intercompany Claims represent projected net claims held by Office Properties Income Trust against other Debtors through the Liquidation Date related to intercompany loans of the proceeds of the DIP Facility during the Chapter 11 Cases. Pursuant to the Final DIP Order and the Cash Management Order,[4] these claims are entitled to superpriority administrative expense status. These claims are estimated to recover at 100%.

[G] Mortgage Debt Guarantee Claims: Mortgage Debt Guarantee Claims include estimated principal and accrued default interest as of the Liquidation Date and are secured through a first lien on the respective collateral (as defined in the UBS Loan Agreement and various JPM Loan Agreements). Holders of the Mortgage Debt Guarantee Claims are estimated to receive a 77.0%-91.8% recovery.

[H] Secured Credit Facility Claims: Secured Credit Facility Claims include estimated principal and accrued default interest as of the Liquidation Date and are secured through a first lien on the respective collateral (as defined in the

---

3 It is assumed solely for the purposes of the Liquidation Analysis that the default interest rates set forth in the applicable debt documents for the Mortgage Debt Guarantee Claims, the Secured Credit Facility Claims, the March 2029 Senior Secured Notes Claims, and the September 2029 Senior Secured Notes Claims apply. It is assumed solely for purposes of the Liquidation Analysis that the Holders of the 2027 Senior Secured Notes Claims will receive interest at a rate of 7.5%. The Debtors reserve all rights as to whether the default interest rates are allowed under any of the applicable debt facilities.

4 The "***Cash Management Order***" means the *Final Order (I) Authorizing Debtors to (A) Continue Existing Cash Management System, (B) Maintain Existing Business Forms and Intercompany Arrangements, and (C) Continue Intercompany Transactions; and (II) Granting Related Relief* [Docket No. 438].

Secured Credit Facility Agreement). Holders of the Secured Credit Facility Claims are estimated to receive an 84.0%-100.0% recovery.

[I] March 2029 Senior Secured Notes Claims: March 2029 Senior Secured Notes Claims include estimated principal, accrued default interest and make-whole premiums as of the Liquidation Date and are secured through a first lien on the respective collateral (as defined in the March 2029 Senior Secured Notes Indenture). Holders of the March 2029 Senior Secured Notes Claims are estimated to receive a 71.4%-86.5% recovery.[5]

[J] September 2029 Senior Secured Notes Claims: September 2029 Senior Secured Notes Claims include estimated principal, accrued default interest and make-whole premiums as of the Liquidation Date and are secured through a first lien on the respective collateral (as defined in the September 2029 Senior Secured Notes Indentures). The September 2029 Senior Secured Notes Claims also hold a second lien claim against the Secured Credit Facility collateral. Holders of the September 2029 Senior Secured Notes Claims are estimated to receive a 25.2%-32.2% recovery.

[K] 2027 Senior Secured Notes Claims: 2027 Senior Secured Notes Claims include estimated principal and accrued default interest and accrued professional fees as of the Liquidation Date and are secured through a first lien on the respective collateral (as defined in the 2027 Senior Secured Notes Indenture). The 2027 Senior Secured Notes Claims also maintain a second lien claim against the September 2029 Senior Secured Notes collateral. Holders of the 2027 Senior Secured Notes Claims are estimated to receive a 70.6%-96.3% recovery.[6]

[L] DIP Claims: DIP Claims include estimated principal and accrued interest as of the Liquidation Date and are secured through a first lien on the respective collateral (as defined in the DIP Credit Agreement). Holders of the DIP Claims are estimated to receive a 100% recovery.

[M] Unsecured Claims: Unsecured Claims are grouped into different categories consistent with the Plan and include the following: (i) Priority Guaranteed Unsecured Notes Claims; (ii) Unsecured Notes Claims; (iii) Parent General Unsecured Claims; (iv) Subsidiary General Unsecured Claims; and (v) any secured debt deficiency claims.[7] See the tables above for the respective recoveries; the secured debt deficiency claim recoveries are factored into Notes H-L above.

---

5 It is assumed solely for the purposes of the Liquidation Analysis that the original issue discount and make-whole premiums (if any) under each of the March 2029 Senior Secured Notes and the September 2029 Senior Secured Notes is allowed. The Debtors reserve all rights as to whether all or any portion of such original issue discount or make-whole premium is allowed and, if allowed, how any such original issue discount or make-whole premium should be calculated.

6 There is a pending adversary proceeding regarding the amount of the 2027 Senior Secured Notes Claims and an appellate dispute regarding default interest and current payment of professional fees on the 2027 Senior Secured Notes. Accordingly, the estimation for the high scenario assumes a high likelihood of success in the 2027 Senior Secured Notes Claims Challenge while the low scenario assumes the 2027 Senior Secured Notes Claims Challenge is unsuccessful. This Liquidation Analysis assumes that approximately $76.4 million of the 2027 Senior Secured Notes Claims related to original issue discount would be disallowed under the high scenario. The Debtors reserve all rights as to whether any such original issue discount is allowed and, if allowed, how any such original issue discount should be calculated.

7 Secured claims with deficiencies are expressed at their full claim value until the respective claim reaches a 100% recovery, if applicable.

Exhibit B

Financial Projections

FINANCIAL PROJECTIONS

In connection with the Disclosure Statement,[1] the Debtors, with the assistance of their advisors, prepared financial projections (the "***Financial Projections***") for Office Properties Income Trust and its debtor affiliates (each, a "***Debtor***" and, collectively, the "***Debtors***") for the period from May 1, 2026 through December 31, 2030 (the "***Projection Period***") for the purpose of demonstrating the feasibility of the Plan. The Financial Projections are based upon a number of assumptions made by the Debtors and their advisors with respect to the future performance of the Debtors' operations. **Although the Debtors have prepared the Financial Projections in good faith and believe the assumptions to be reasonable, there can be no assurance that such assumptions and results will be realized. As described in detail in the Disclosure Statement, a variety of risk factors could affect the Debtors' financial results and must be considered. Accordingly, the Financial Projections should be reviewed in conjunction with the risk factors set forth in the Disclosure Statement and the assumptions described herein, including all relevant qualifications and footnotes.**

The Financial Projections are based upon the internal view of the Debtors' management of the projected financial performance conducted before the filing of these Financial Projections and may differ methodologically from historical public reporting by the Debtors (*e.g.*, the Financial Projections herein are not in accordance with GAAP accounting). The Debtors believe that the Plan meets the feasibility requirements set forth in section 1129(a)(11) of the Bankruptcy Code, as confirmation is not likely to be followed by liquidation or the need for further financial reorganization of the Debtors or any successor under the Plan. In connection with the planning and development of the Plan and for the purposes of determining whether the Plan would satisfy this feasibility standard, the Debtors analyzed their ability to satisfy their financial obligations while maintaining sufficient liquidity and capital resources.

These Financial Projections were not prepared with a view toward compliance with published guidelines of the United States Securities and Exchange Commission or guidelines established by the American Institute of Certified Public Accountants for preparation and presentation of prospective financial information. An independent auditor has not examined, compiled, or performed any procedures with respect to the prospective financial information contained in this exhibit and, accordingly, it does not express an opinion or any other form of assurance on such information or its achievability. The Debtors' independent auditor assumes no responsibility for, and denies any association with, the prospective financial information.

Principal Assumptions for the Financial Projections

The Financial Projections reflect numerous assumptions with respect to the anticipated future performance of the Debtors, industry performance, general business and economic conditions, and other matters, many of which are beyond the control of the Debtors or their advisors. In addition,

[1] Capitalized terms used but not otherwise defined herein shall have the meaning ascribed to such terms in the Disclosure Statement to which this is an exhibit or the Plan, as applicable.

the assumptions do not take into account the uncertainty and disruption of business that may accompany a restructuring pursuant to the Bankruptcy Code.

Although the Financial Projections are presented with numerical specificity, the actual results achieved during the Projection Period may materially vary from the projected results. Accordingly, no definitive representation can be or is being made with respect to the accuracy of the Financial Projections or the ability of the Debtors to achieve the projected results of operations. *See* "Risk Factors" in Article IX of the Disclosure Statement. For holders of Claims that are entitled to vote to accept or reject the Plan, such holders must make their own determinations as to the reasonableness of such assumptions and the reliability of the Financial Projections. Moreover, the Financial Projections were prepared solely in connection with the restructuring pursuant to the Plan (the "***Restructuring***").

In connection with the planning and development of the Plan, and for the purposes of determining whether such Plan would satisfy this feasibility standard, the Debtors analyzed their ability to satisfy their financial obligations while maintaining sufficient liquidity and capital resources. Under Accounting Standards Codification "ASC" 852, "Reorganizations," the Debtors note that the Financial Projections reflect the Debtors' operations at emergence from these Chapter 11 Cases but do not reflect the full impact of "fresh start accounting" that will likely be required upon emergence. Fresh start accounting requires all assets, liabilities, and equity instruments to be determined at "fair value." In addition to valuing assets, liabilities, and equity instruments at fair value, the Debtors will have tax professionals analyze any go forward tax implications as a result of the transactions contemplated by the Restructuring. The Financial Projections account for the Restructuring and related transactions pursuant to the Plan, including the minimum REIT distributions, but they do not account for the final analysis that will be done upon emergence. While the Debtors expect that they will be required to implement fresh start accounting upon emergence, they have not yet completed the work required to quantify the impact to the Financial Projections. When the Debtors fully implement fresh start accounting, material differences may exist in the Financial Projections.

Safe Harbor under the Private Securities Litigation Reform Act of 1995

The Financial Projections contain statements which constitute "forward-looking statements" within the meaning of the Securities Act and the Securities Exchange Act. Forward-looking statements in the Financial Projections include the intent, belief, or current expectations of the Debtors with respect to the timing of, completion of, and scope of the current restructuring, Plan, debt and equity market conditions, and the Debtors' future liquidity, as well as the assumptions upon which such statements are based.

While the Debtors believe that the expectations are based upon reasonable assumptions within the bounds of their knowledge of their business and operations, parties in interest are cautioned that any such forward-looking statements are not guarantees of future performance, and involve risks and uncertainties, and that actual results may differ materially from those contemplated by such forward-looking statements.

Select Risk Factors Related to the Financial Projections

The Financial Projections are subject to inherent risks and uncertainties, most of which are difficult to predict and many of which are beyond the Debtors' control. Many factors could cause actual results, performance, or achievements to differ materially from any future results, performance, or achievements expressed or implied by these forward-looking statements. A description of the risk factors associated with the Plan, the Disclosure Statement, and the Financial Projections is included in Article IX of the Disclosure Statement.

Financial Projections General Assumptions

1. The Financial Projections were prepared based on the Debtors' ownership shares in the investment properties and other assets. The Financial Projections also include revenue and expenses that flow to the Debtors from their non-Debtor subsidiaries that are either wholly owned by the Debtors or owned in a joint venture with third parties. Further, these Financial Projections did not include the revenues and expenses from Debtors whose equity interests constitute 2027 Senior Secured Notes First Lien Pledged Collateral. Certain additional planned asset dispositions are included as described in the Financial Projections Line-Item Assumptions.

2. **Plan Terms and Consummation**. The Financial Projections assume the Restructuring will be consummated as of the Effective Date, which is assumed to occur on May 1, 2026.

3. **Reorganized Capital Structure**. Pursuant to the Plan, the Financial Projections assume the following changes to the Debtors' funded indebtedness:

    a. The September 2029 Senior Secured Notes (including a principal balance of $610 million) will be exchanged for, among other things, $420 million of Secured Exit Notes due 2031 and Reorganized Common Equity pursuant to the Plan;
    b. The secured portion of the 2027 Senior Secured Notes (including a principal balance of $419 million) will be exchanged for certain or all Interests held by the Parent, OPI 25 Exchange LLC, and/or SIR Operating Partnership LP that constitute 2027 Senior Secured Notes First Lien Pledged Collateral. The unsecured portion (if any) of such notes will receive, among other things, Reorganized Common Equity pursuant to the Plan;
    c. The DIP Facility (including a principal balance of $125 million plus DIP Fee Claims) will be exchanged for Reorganized Common Equity and up to $25 million in Cash;
    d. The Unsecured Notes (including a principal balance of $491 million) will be exchanged for Reorganized Common Equity pursuant to the Plan;
    e. The March 2029 Senior Secured Notes, the Secured Credit Facility, and the Mortgage Debt will be reinstated or otherwise rendered unimpaired upon emergence.

<u>Financial Projections Line-Item Assumptions</u>

1. **Cash Basis Net Operating Income ("*Cash NOI*")**: Cash NOI is a non-GAAP metric defined as property operating revenues less property operating expenses. Property operating revenues include rental revenue from tenants and other income. Property operating expenses include property operations, real estate taxes, maintenance and repairs, and other property-related expenses. Cash NOI excludes certain non-cash adjustments to property operating revenues and property operating costs. The following reflects the Debtors' forecast for Cash NOI: $125 million for the period from May 2026 through December 2026; $176 million for the year 2027; $191 million for the year 2028; $193 million for the year 2029; and $194 million for the year 2030.

2. **Capital Expenditures ("*Capex*")**: Projections for Capex were prepared with considerations of the Debtors' revenue and expected requirements to maintain asset values going forward. Capex is used for maintaining the Debtors' properties, developing and improving current properties, and tenant improvement allowances per various current and future leases.

    a. **Building Capex**: Building improvements generally include expenditures to replace obsolete building components and expenditures that extend the useful life of existing assets.
    b. **Leasing Capex**: Lease related costs generally include Capex used to improve tenants' space or amounts paid directly to tenants to improve their space and leasing related costs, such as brokerage commissions and other tenant inducements.
    c. **Redevelopment Capex**: Development, redevelopment, and other activities generally include Capex projects that reposition a property or result in new sources of revenue.

3. **General and Administrative Expenses ("*G&A*")**: G&A are the costs required to maintain the Company's daily operations. These costs include, but are not limited to, monthly business management fees paid to RMR pursuant to the applicable RMR Management Agreement and other costs such as third-party legal and accounting fees. It is assumed that the Company emerges from bankruptcy as a private company. If the Company emerges as a publicly traded Company instead, there will likely be additional costs relative to those included in this analysis. The Debtors have excluded depreciation and amortization from the Financial Projections, as they have not yet completed the final analysis of fresh start accounting.

4. **Dispositions**: Includes estimated net proceeds from the disposition of approximately seventeen (17) properties. While it is assumed that the Debtors will generate $137 million in proceeds from the sale of these properties in the fourth quarter of 2026, the amount and timing of such proceeds is uncertain and may be affected by a variety of factors. *See* "Risk Factors" in <u>Article IX</u> of the Disclosure Statement.

There could be material adverse tax consequences on asset dispositions. These tax consequences could have a material impact on the amount of net proceeds received and, as discussed in further detail below, the level of required REIT distributions.

5. **Principal Payments**: Includes payments of principal in accordance with the Debtors' post emergence capital structure. The Financial Projections assume that $137 million in disposition proceeds in the fourth quarter of 2026 will be used to paydown the Secured Exit Notes due 2031.

6. **Interest Payments**: Includes payments of interest in accordance with the Debtors' post-emergence capital structure. The Financial Projections assume that all debt is refinanced with the same terms at maturity.

7. **Dividends / Distributions**: To qualify as a REIT under the IRC, OPI must, among other things, make distributions to its shareholders aggregating annually to at least 90% of OPI's REIT taxable income, as determined under the IRC. Further, OPI must distribute 100% of OPI's REIT taxable income to avoid paying corporate income tax on undistributed income. The Financial Projections assume that any ownership change attributable to the consummation of the Plan meets the requirements of, and the Debtors apply, Section 382(l)(5) of the IRC, in which case the Debtors do not project taxable income in any year during the Projection Period. Accordingly, no REIT distributions are included in the Financial Projections. If the consummation of the Plan does not meet the requirements of Section 382(l)(5) of the IRC, OPI would be required to make additional REIT distributions to maintain its status as a REIT and avoid paying corporate income tax on undistributed income.

   The foregoing is subject to material change pending final tax analysis of the restructuring transaction and any potential impacts from asset dispositions.

8. **Beginning Cash Balance**: Includes projected unrestricted cash as of May 1, 2026 based on the Approved Budget (as defined in the Final DIP Order) dated January 29, 2026. The Financial Projections assume that ERO A is sized such that the Debtors emerge with $30 million in unrestricted cash.

Exhibit C

Valuation Analysis

Reorganized Debtors' Valuation Analysis[1]

THE VALUATION INFORMATION CONTAINED HEREIN IS NOT A PREDICTION OR GUARANTEE OF THE ACTUAL MARKET VALUE THAT MAY BE REALIZED THROUGH THE SALE OF ANY SECURITIES TO BE ISSUED PURSUANT TO THE PLAN. THIS VALUATION IS PRESENTED SOLELY FOR THE PURPOSE OF PROVIDING ADEQUATE INFORMATION AS REQUIRED BY SECTION 1125 OF THE BANKRUPTCY CODE TO ENABLE THE HOLDERS OF CLAIMS ENTITLED TO VOTE TO ACCEPT OR REJECT THE PLAN TO MAKE AN INFORMED JUDGMENT ABOUT THE PLAN AND SHOULD NOT BE USED OR RELIED UPON FOR ANY OTHER PURPOSE, INCLUDING THE PURCHASE OR SALE OF CLAIMS AGAINST OR INTERESTS IN THE DEBTORS.

At the Debtors' request, Moelis & Company LLC ("***Moelis***") performed a valuation analysis to estimate the enterprise value of the Reorganized Debtors on a going concern basis as of May 1, 2026 (the "***Enterprise Value***").

As set forth in the assumptions below, the Enterprise Value assumes that Allowed Class 6 2027 Senior Secured Notes Claims will receive, in full satisfaction of the Allowed 2027 Senior Secured Notes Claim Amount, certain or all Interests held by the Parent, OPI 25 Exchange LLC, and/or SIR Operating Partnership LP that constitute 2027 Senior Secured Notes First Lien Pledged Collateral, in accordance with the treatment for such claim under the Plan (the "***Proposed 2027 Senior Secured Notes Treatment***"). Accordingly, the Enterprise Value and the valuation analysis conducted by Moelis do not include or ascribe any value to the equity or assets that constitute 2027 Senior Secured Notes First Lien Pledged Collateral or 2027 Senior Secured Notes First Lien Collateral. For purposes of this Valuation Analysis, the term "Reorganized Debtors" does not include any Debtor entities whose equity or assets constitute 2027 Senior Secured Notes First Lien Pledged Collateral or 2027 Senior Secured Notes First Lien Collateral (such entities, the "***2027 Notes First Lien Collateral Entities***").

The valuation analysis set forth herein (this "***Valuation Analysis***") is based on the business plan prepared by the Debtors' management.

Based upon and subject to the review and analysis described herein, and subject to the assumptions, limitations and qualifications described herein, Moelis' view, as of February 11, 2026, was that the Enterprise Value of the Reorganized Debtors, as of an assumed valuation date, for purposes of Moelis' valuation analysis, of May 1, 2026 (the "***Assumed Valuation Date***"), would be in a range between $1,650 million and $1,850 million. After adjusting for expected net debt, the implied equity value (the "***Equity Value***") would be in a range between $328 million and $528 million.

Moelis' views are necessarily based on economic, monetary, market, and other conditions as in effect on, and the information made available to Moelis as of the date of its analysis (February 11, 2026). It should be understood that, although subsequent developments may affect Moelis' views, Moelis does not have any obligation to update, revise, or reaffirm its analysis or its estimate.

Moelis' analysis is based, at the Debtors' direction, on a number of assumptions, including, among

---

[1] Capitalized terms used but not otherwise defined herein shall have the meanings ascribed to them in Plan.

other assumptions, that: (a) the Debtors will be reorganized in accordance with the Plan, which will be effective on the Assumed Valuation Date; (b) holders of Allowed 2027 Senior Secured Notes Claims will receive the Proposed 2027 Senior Secured Notes Treatment and the 2027 Notes First Lien Collateral Entities will not be part of the Reorganized Debtors' go-forward enterprise (c) the Reorganized Debtors will achieve the results set forth in the Debtors' management's financial projections attached as Exhibit [●] to this Disclosure Statement (the "***Financial Projections***") for 2026 through 2030 (the "***Projection Period***") provided to Moelis by the Debtors; (d) the Reorganized Debtors' capitalization and available cash will be as set forth in the Plan and this Disclosure Statement; (e) the Reorganized Debtors will sell assets in line with the dispositions schedule provided to Moelis by the Debtors; and (f) the Reorganized Debtors will be able to obtain all future financings, on the terms and at the times, necessary to achieve the results set forth in the Financial Projections. Moelis makes no representation as to the achievability or reasonableness of such assumptions. In addition, Moelis assumed that there will be no material change in economic, monetary, market, and other conditions as in effect on, and the information made available to Moelis, as of the Assumed Valuation Date.

Moelis assumed, at the Debtors' direction, that the Financial Projections prepared by the Debtors' management were reasonably prepared on a basis reflecting the Debtors' management's best currently available estimates and judgments of the Debtors' management as to the future financial and operating performance of the Reorganized Debtors. The future results of the Reorganized Debtors are dependent upon various factors, many of which are beyond the control or knowledge of the Debtors, and consequently are inherently difficult to project. The Reorganized Debtors' actual future results may differ materially (positively or negatively) from the Financial Projections and, as a result, the actual enterprise value and/or equity value of the Reorganized Debtors may be materially higher or lower than the estimated range herein. Among other things, failure to consummate the Plan in a timely manner may have a materially negative impact on the enterprise value and/or equity value of the Reorganized Debtors.

The estimated Enterprise Value and Equity Value set forth above represent hypothetical enterprise value and equity value of the Reorganized Debtors as the continuing operators of the business and assets of the Debtors, after giving effect to the Plan, based on consideration of certain valuation methodologies as described below. The estimated Enterprise Value and Equity Value in this section do not purport to constitute an appraisal or necessarily reflect the actual market values that might be realized through a sale or liquidation of the Reorganized Debtors, their securities or their assets, which may be materially higher or lower than the estimated value ranges herein. The actual value of an operating business such as the Reorganized Debtors' business is subject to uncertainties and contingencies that are difficult to predict and will fluctuate with changes in various factors affecting the financial condition and prospects of such a business.

In conducting its analysis, Moelis, among other things: (a) reviewed certain publicly available business and financial information relating to the Reorganized Debtors that Moelis deemed relevant (*i.e.*, historical filings, court filings, information as part of the current Chapter 11 process, etc.); (b) reviewed Financial Projections, furnished to Moelis by the Debtors; (c) reviewed the projected capitalization of the Reorganized Debtors; (d) conducted discussions with members of senior management and representatives of the Debtors concerning the matters described in clauses (a) through (c) of this paragraph, as well as their views concerning the Debtors' business and prospects before giving effect to the Plan, and the Reorganized Debtors' business and prospects after giving effect to the Plan; (e) reviewed publicly available financial and stock market data for certain other companies in lines of business that Moelis deemed relevant; (f) reviewed publicly available financial data for certain transactions that Moelis deemed relevant; and (g) conducted such other financial studies and analyses and took into account such other information as Moelis deemed appropriate. In connection with its review, Moelis did not assume any responsibility for independent verification of any of the information supplied to, discussed with, or reviewed by Moelis and, with the consent of the Debtors, relied on such information being complete and accurate in all material respects. In addition, at the direction of the Debtors, Moelis did not make any independent evaluation or appraisal of any of the assets or liabilities (contingent, derivative, off-balance- sheet, tax-related or otherwise) of the Reorganized Debtors. Moelis also assumed, with the Debtors' consent, that the final form of the Plan does not differ in any respect material to its analysis from the final draft of the Plan that Moelis reviewed.

The estimated Enterprise Value and Equity Value in this section do not constitute a recommendation to any Holder of a Claim or Interest as to how such Holder of a Claim or Interest should vote or otherwise act with respect to the Plan. Moelis has not been asked to and does not express any view as to what the trading value of the Reorganized Debtors' securities would be when issued pursuant to the Plan or the prices at which they may trade in the future. The estimated Enterprise Value and Equity Value set forth herein do not constitute an opinion as to fairness from a financial point of view to any Holder of a Claim or Interest of the consideration to be received by such Holder of a Claim or Interest under the Plan, if any, or of the terms and provisions of the Plan.

[*Remainder of page intentionally left blank*]

Valuation Methodologies

In preparing its valuation, Moelis performed a variety of financial analyses and considered a variety of factors. The following is a brief summary of the material financial analyses performed by Moelis, which consisted of: (a) a discounted cash flow analysis; (b) a selected publicly traded companies analysis; and (c) a selected transactions analysis. This summary does not purport to be a complete description of the analyses performed and factors considered by Moelis. The preparation of a valuation analysis is a complex analytical process involving various judgmental determinations as to the most appropriate and relevant methods of financial analysis and the application of those methods to particular facts and circumstances, and such analyses and judgments are not readily susceptible to summary description. As such, Moelis' valuation analysis must be considered as a whole. Reliance on only one of the methodologies used, or portions of the analysis performed, could create a misleading or incomplete conclusion as to enterprise value.

A. ***Discounted Cash Flow Analysis.*** The discounted cash flow ("***DCF***") analysis is a valuation methodology that estimates the value of an asset or business by calculating the present value of expected future cash flows to be generated by that asset or business plus a present value of the estimated terminal value of that asset or business. Moelis' DCF analysis used the Financial Projections' estimated debt-free, after-tax free cash flows through December 31, 2030. These cash flows were then discounted at a range of estimated weighted average costs of capital ("***Discount Rate***") for the Reorganized Debtors. The Discount Rate reflects the estimated blended rate of return that would be expected by debt and equity investors in the Reorganized Debtors' business based on a target capital structure. In determining the estimated terminal value of the Reorganized Debtors, Moelis utilized the implied cap rate method which estimates a range of values for the Reorganized Debtors at the end of the Projection Period based on applying a range of cap rates to final year net operating income. In estimating a range of cap rates for its DCF analysis, Moelis took into account (a) the Debtors' growth, profitability and free cash flow profile in the terminal period; and (b) market cap rates (calculated as net operating income divided by market value of real estate) of selected publicly traded real estate investment trusts ("***REITs***") deemed generally relevant by Moelis that own predominately office real estate in the United States, with a focus on REITs with exposure to low-barrier-to-entry markets that have operating and financial characteristics comparable in certain respects to the Reorganized Debtors. For example, such characteristics may include similar size, financial leverage, business model, geographic footprint, tenant characteristics, and asset profile.

To determine the Discount Rate, Moelis used the estimated cost of equity and the estimated after-tax cost of debt for the Reorganized Debtors, assuming a targeted, long-term, debt-to-total capitalization ratio (based on debt-to-capitalization ratios of the selected publicly traded companies and the proposed capital structure contemplated by the Plan). Moelis calculated the cost of equity based on (a) the capital asset pricing model, which assumes that the expected equity return is a function of the risk-free rate, equity risk premium, and the correlation of the stock performance of the selected publicly traded companies to the return on the broader market, and (b) an adjustment related to the estimated equity market capitalization of the Reorganized Debtors, which reflects the historical equity risk premium of small, medium, and large equity market capitalization companies. To estimate the cost of debt, Moelis held discussions with its capital markets team and determined a cost of debt rate based on the Reorganized Debtors' size, industry, geographic footprint, cash flow profile as well as the current market environment, long-term corporate credit spreads for secured debt and an understanding of certain existing OPI debt instruments. Moelis utilized the Debtors' management's assumptions in determining a go-forward tax rate.

B. ***Selected Publicly Traded Companies Analysis*** The selected publicly traded companies analysis is based on the market cap rates (calculated as net operating income divided by market value of real estate) of selected publicly traded real estate investment trusts ("REITs") deemed generally relevant by Moelis that own predominately office real estate in the United States, with a focus on REITs with exposure to low-barrier-to-entry markets that have operating and financial characteristics comparable in certain respects to the Reorganized Debtors. For example, such characteristics may include similar size, financial leverage, business model, geographic footprint, tenant characteristics, and asset profile. Under this methodology, Moelis applied a relevant cap rate range to the Reorganized Debtors' pro rata net operating income to derive a range of potential values of the business of the Reorganized Debtors.

Although the selected companies were used for comparison purposes, no selected publicly traded company is either identical or directly comparable to the business of the Reorganized Debtors. Accordingly, Moelis' comparison of selected publicly traded companies to the business of the Reorganized Debtors and analysis of the results of such comparisons was not purely mathematical, but instead involved considerations and judgments concerning differences in operating and financial characteristics and other factors that could affect the relative values of the selected publicly traded companies and the Reorganized Debtors. The selection of appropriate companies for this analysis is a matter of judgment and subject to limitations due to sample size and the public availability of meaningful market-based information.

C. ***Selected Transactions Analysis***. The selected transactions analysis is based on the implied cap rates for selected publicly disclosed merger-and-acquisition transactions for REITs deemed generally relevant by Moelis in certain aspects to this transaction for which the targets had operating, portfolio, and financial characteristics comparable in certain respects to the Reorganized Debtors. Under this methodology, Moelis applied a relevant cap rate range to the Reorganized Debtors' pro rata net operating income to derive a range of potential values of the business of the Reorganized Debtors. Moelis analyzed various merger and acquisition transactions that have occurred in the office REIT sector since 2020.

Although the selected precedent transactions were used for comparison purposes, no company included in the selected precedent transaction analysis is either identical or directly comparable to the business of the Reorganized Debtors. Accordingly, Moelis' comparison of selected precedent transactions to the business of the Reorganized Debtors and analysis of the results of such comparisons was not purely mathematical, but instead involved considerations and judgments concerning differences in operating and financial characteristics and other factors that could affect the relative values implied by the selected precedent transactions analysis and the Reorganized Debtors. The selection of appropriate transactions for this analysis is a matter of judgment and subject to limitations due to sample size and the public availability of meaningful market-based information.

Other factors not directly related to a company's business operations can affect a valuation in a transaction, including, among others factors, the following: (a) circumstances surrounding a merger transaction may introduce "diffusive quantitative results" into the analysis (e.g., a buyer may pay an additional premium for reasons that are not solely related to competitive bidding); (b) the market environment is not identical for transactions occurring at different periods of time; (c) circumstances pertaining to the financial position of the company may have an impact on the resulting purchase price (e.g., a company in financial distress may receive a lower price due to perceived weakness in its bargaining leverage); and (d) the ongoing tax environment at the time of the transaction.

Reorganized Debtors—Valuation Considerations

The estimated Enterprise Value and Equity Value in this section is not necessarily indicative of actual value, which may be significantly higher or lower than the ranges set forth herein. Accordingly, none of the Debtors, Moelis or any other person assumes responsibility for the accuracy of such estimated Enterprise Value. Depending on the actual financial results of the Debtors or changes in the economy and the financial markets, the equity value of the Reorganized Debtors as of the Assumed Valuation Date may differ from the estimated Equity Value set forth herein. In addition, the market prices, to the extent there is a market, of Reorganized Debtors' securities will depend upon, among other things, prevailing interest rates, conditions in the economy and the financial markets, the investment decisions of prepetition creditors receiving such securities under the Plan (some of whom may prefer to liquidate their investment rather than hold it on a long-term basis), changes in federal and state regulations, and other factors that generally influence the prices of securities.
